## EXIT TICKET

### INSTRUCTIONS FOR STUDENTS:

This graphic organizer will help you keep track of information about water for all of

- ‘ Ž 1 › Ž Š • ’ — • œ ï 1 — 1 • • Šearmedfour Šmpertard less Ž 1.
- x First, describe, or write about, how much water is available for humans to use.
- x Ž j • ð 1 • Ž œ œ › ’ ‹ Ž 1 ™ Ž, ð ™ hžir œ 1 t Š œ Ž water.
- x Then, describe the problems, or challenges, that we have to make sure there is safe drinking water.
- x Finally, write down the so what what we must do to make sure we have safe drinking water?

Availability of water	Access to water	Water challenges	So what?
<p>Only _____ of all water on earth is available for use.</p>	<p>_____ of the world's people do not have enough _____.</p>	<p>There may be less safe water because of _____ and _____.</p>	<p>[Write what we must do to have safe drinking water]</p>

Word	Definition	Example
limited	not endless	There is limited water for people to drink
military	armed forces of a country	Yet WHO says meeting its MDG for safe water would cost less than five days' worth of global military spending.
occur	take place; happen	For many areas , rainfall will occur in a shorter period of time.
period	portion of time	For many areas , rainfall will occur in a shorter period of time.
political	having to do with government or public affairs
