Our work continues

By Betty Rosa
Regents Chancellor

As we enter the new school year, I am excited to see the work we have done over the past year. The work we have done is not just about the numbers, but about the quality of our schools. We have made significant progress in many areas, including student achievement, teacher effectiveness, and school climate. We have also made important investments in our schools, including new technology, professional development, and infrastructure. We are committed to continuing this work and ensuring that every child has the opportunity to succeed.
